

Information about some Tasmanian Psychiatrists is available on the RACGP website at www.racgp.org.au/psychiatristdatabase. You will need your RACGP user name and password to access this information. Information includes areas of preferred practice and practice details such as whether they accept 291 referrals (listed as "accepts urgent 1-2 visit") and whether they bulk bill.

Tasmania Medicare Local currently has the following contact details for private Psychiatrists in southern Tasmania. Some bulk bill, but several did not want to be identified as they operate on a case by case basis. Also be aware that, some Psychiatrists charge above the Medicare rebate and patients may need to make a gap payment. As this situation varies, please check the psychiatrist database on the RACGP website or contact the Psychiatry practice.
