## Electronic Discharge Summary - implementation at RHH

As you are aware LGH, NWRH and Mersey Community Hospital have been using an electronic discharge summary (EDS) for some time.

The Royal Hobart Hospital is now also rolling out the same electronic discharge summary system (Pharmacare Clinical Suite application). The General Medicine unit commenced using EDS on Monday 7 November. As of 16 November, 64 electronic discharge summaries had been sent from RHH to GPs. Dr Annette Barratt commented 'they are excellent in that they are typed and have a consistent style'.

It is anticipated that one more ward will be using EDS before Christmas and rollout to other wards will continue in 2012. All feedback would be appreciated and can be made to Professor Tony Bell, Chief Medical Officer at RHH, via email [Anthony.Bell@dhhs.tas.gov.au](mailto:Anthony.Bell@dhhs.tas.gov.au)

<b>Spasticity</b>	M Slatyer			Monthly Clinic

**PODIATRY IS MOVING:** The RHH Podiatry Service has moved to Level 5 of the Telstra Building, Cnr of Collins & Argyle Streets, Hobart. It is anticipated that usual Podiatry & Footcare services will resume in the new location in early 2012. Should you require management of a routine nature or are unable to wait until our service has returned to normal, a number of alternative services are available. For advice or further information, contact the Podiatry Manager, Helen Burnet, on 6222 8403.

## RHH DEDICATED GP LINE CALL 6222 6660

The RHH have advised that they are transitioning to a new patient system, and are working to provide accurate clinic data and timeframes.

**Key: XS=no scopes XSR=no scopes at RHH XB= no breasts XT=no thyroid XL=no lap banding XG= no ganglions N/A=no new appts**
